Re: Verification of Water Usage Data

Dear Stan:

Enclosed is a copy of the Utah Lake Water Supply Update for the month of August, 1994. Also enclosed is a summary of the data for the month of August that you recently transferred to the Division's database. This summary shows the monthly volume (acre-feet in two half-month totals) and the corresponding total annual volume (acre-feet for '94 distribution season) of water delivered or stored that may influence the data reported in the Utah Lake Water Supply Update.

Please compare the data within the summary with your official records to make sure that your data was transferred correctly and completely. Please report any necessary data corrections/additions to Ben Anderson, CUP Coordinator, at 538-7469.

Your help is much appreciated. If you have any questions please feel free to contact this office.

Sincerely,

Robert L. Morgan, P.E.
State Engineer
